Priyanshu Sahoo

BTech AI/ML '28 | Bridging Technical Problem Solving (C/C++) with Market & Financial Analysis

Gunupur, Odisha, India

Summary

2nd BTech student specializing in Artificial Intelligence and Machine Learning, combining technical foundations in C and C++ with a sharp analytical edge from active stock trading and market analysis. Critical thinking and rigorous data evaluation aren't just concepts on a screen for me—they are daily disciplines applied to reading market trends and assessing risk. I bring a unique dual perspective bridging core computer science with strategic product marketing and consumer behavior. Always looking to connect with peers, founders, and professionals at the intersection of tech, finance, and innovation.
